

Sannazzaro (Eni, Po Valley) — Special case analysis

Extreme Dunkelflaute severity requires import-led decarbonisation strategy

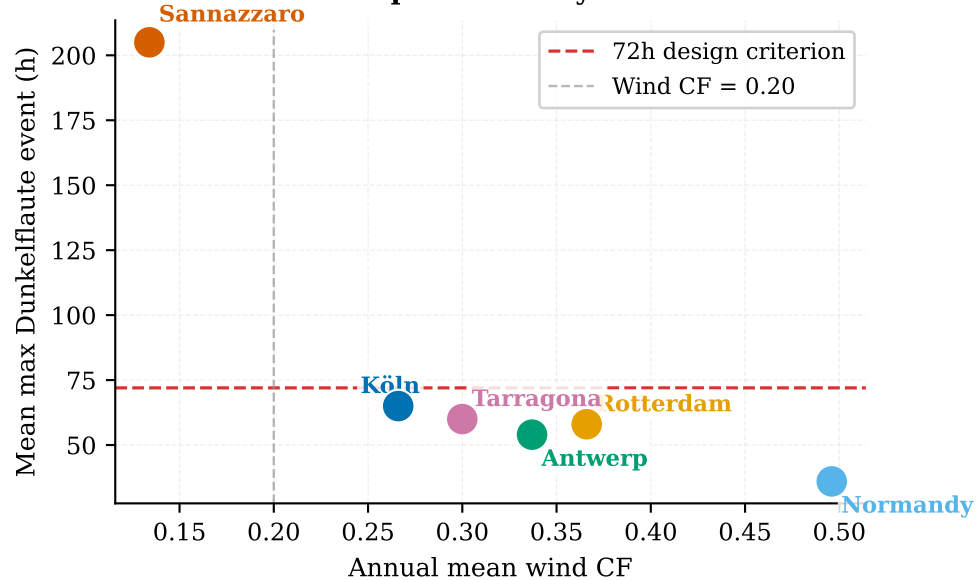

(a) Sannazzaro wind profile 2020
53-62% of hours below 10% CF

(b) Distribution of low-wind events
(wind CF < 10%)

(c) Wind CF vs Dunkelflaute severity
6 European refinery locations

(d) Decarbonisation options for Eni
Sannazzaro refinery
